PROFILE SUMMARY

Software Developer with 2+ years of experience in full-stack web development, RESTful APIs, and AI-powered applications. Familiar with React.js, JavaScript, PHP, Python, and MySQL, with experience building SaaS and AI-driven platforms. Progressed to a Project Tech Lead role, leading development activities, making architectural decisions, and mentoring junior developers.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python

Frontend: React.js, HTML, CSS

Backend & APIs: PHP, REST APIs

AI & GenAI: RAG, Prompt Engineering, NLP

Database: MySQL

Tools: Git, GitHub, Postman, JIRA, VS Code, XAMPP

EDUCATION

Master of Computer Applications (MCA) — Jain Deemed-to-be University | 2022–2024 | CGPA: 8.73

Bachelor of Computer Applications (BCA) — Mount Carmel College, Autonomous | 2018–2021

EXPERIENCE

Project Tech Lead

Alstonair Technologies Private Ltd | Jan 2026 – Jul 2026

Promoted from Software Developer

- Led a development team in planning, developing, and delivering SaaS features within project timelines.
- Defined application architecture and contributed to technical design decisions focused on scalability, performance, and maintainability.
- Assigned development tasks, tracked sprint progress, and coordinated daily Scrum activities.
- Mentored junior developers through technical guidance, debugging, and training sessions.
- Deployed two projects, coordinating application setup, configuration, and release activities.
- Developed and deployed both frontend and backend components for the Alstonair Tech Bootcamp registration platform using React, PHP, and MySQL.
- Collaborated with product and development teams to translate business requirements into technical solutions.

Software Developer

Alstonair Technologies Private Ltd | Dec 2024 – Jan 2026

- Contributed to the development of TopSca, an AI-powered skill assessment platform using React, Python, and MySQL.
- Developed an internal assessment platform using React, PHP, and MySQL to automate evaluation workflows and streamline the recruitment process.
- Built and deployed RESTful APIs to support application functionality and data exchange.
- Prepared technical documentation to support development, maintenance, and onboarding.

Tech Stack: React.js, PHP, MySQL, JavaScript, REST APIs, Git, XAMPP, Python

Junior Developer Intern – Product Implementations

Skience LLC, Bengaluru | Jun 2022 – May 2023

Project: Cambridge Investment Research

- Worked with **MS SQL, Salesforce form integration, and JavaScript-based automation** for client-specific solutions.
- Developed custom form components, fields, and business conditions using JavaScript based on client requirements.
- Supported bug fixing, testing, and defect tracking using JIRA
- Collaborated with cross-functional teams to deliver project modules according to client requirements.

Tech Stack: MS SQL, JavaScript, Salesforce, JIRA

PROJECTS

AI Document Analyzer

- Built an AI-powered document Q&A web application that extracts PDF content, retrieves relevant sections using semantic search, and generates source-cited answers.

Sentiment Analysis of Customer Feedback

- Built a Python-based application to analyze customer sentiment using basic NLP techniques and categorize customer feedback.

Kids Pre-Owned Products App

- Created an **Android app** with Firebase backend for buying, selling, and renting kids' products in a sustainable marketplace.
-
